E2Tech Expo 2017 – Annual Meeting

University of Southern Maine, Portland
November 16, 2017
E2Tech is Maine’s only energy, environmental, and clean technology business and economic development organization.

E2Tech is a catalyst, a change agent, and a resource center that strives to:
1. Promote Maine companies;
2. Support their robust and sustainable acceleration; and
3. Help them compete in national and global markets.

E2Tech helps companies overcome research, development, and commercialization challenges by providing connections to investment and funding opportunities, mentors, strategic partners, business and technical information, and other resources.
Members include:

- Energy companies & utilities
- Engineers
- Environmental consultants
- Government agencies
- Individuals and sole proprietorships
- Manufacturers
- Nonprofit organizations
- Professional services firms
- Startups & entrepreneurs
- Students
- Universities and colleges

Highlights – FY 2017

- Held 12 events with around 2,000 people and co-hosted, co-sponsored, and planned partner events with hundreds more.

- Continued to contribute to Maine media articles with expert commentary on current E&E topics; information on members’ products, services, and technologies; and promotion of the E&E sector and its companies.

- E2Tech was recognized as a SunriseGuide Steward of Sustainability.

- Submitted final report to MTI, effectively closing out CIP 164 grant focused on startup and entrepreneurial support services.
E2Tech Expo 2016: Over 300 registered attendees, 32 speakers, 8 panel sessions, 25 sponsors and 20 additional exhibitors, kick-off to SEP outreach

Offered E2Tech grant application preparation support to Maine entrepreneurs seeking start-up and R&D funding. Awarded $2,225 to two companies to support preparation of six MTI, NSF, and EPA grant applications totaling over $400,000.

Connecting over 50 startups, 60 mentors, and dozens of strategic partners to resources, partners, clients, customers, investment/funding, etc.

Continuing to work on DOE State Energy Planning Roadmap with Governor’s Energy Office.
